## DOMINION ORDERS IN COUNCIL.

[3]

AT THE GOVERNMENT HOUSE AT OTTAWA,

Monday, the 17th day of January, 1910.

PRESENT :

HIS EXCELLENCY THE GOVERNOR-GENERAL  
IN COUNCIL.

**W**HEREAS a number of applications have been submitted to the Department of the Interior for permission to remove sand, stone and gravel from the submerged beds of rivers in the Provinces of Manitoba, Saskatchewan and Alberta, and within the Railway Belt in the Province of British Columbia;

And whereas it would appear from advice received from the Department of Justice that in so far as the bed and banks of these rivers are Crown property, they are Dominion lands and belong to the Federal Government, so that the administration of the same would appear to be within the province of the Department of the Interior;

And whereas it would seem to be in the public interest to satisfy the demand at the different centres of population along these streams, for sand and gravel for construction purposes, provided the removal of the sand and gravel does not in any way interfere with the navigation or other utility of the different streams;

Therefore His Excellency is pleased to make, and doth hereby make, the following Regulations for the issue of permits to remove sand, stone and gravel, the property of the Crown, from the submerged beds of rivers and lakes in Manitoba, Saskatchewan, Alberta, the North-West Territories and within the Railway Belt of the Province of British Columbia:—

1. The Agent of Dominion Lands for the District in which the rights applied for are situated may, upon application, grant yearly permits to remove sand, stone and gravel, the property of the Crown, from the submerged beds of rivers and lakes in the Provinces of Manitoba, Saskatchewan, Alberta, the North-West Territories and within the Railway Belt in the Province of British Columbia.

2. All permits shall expire on the 30th day of November in each year.

3. Not more than one permit shall be issued to an applicant in one year.

4. The permit shall grant permission to remove a certain specified number of cubic yards of sand, stone or gravel from a portion of the bed of the river to be described in the permit, but shall not constitute any exclusive right to the portion of the river or the bed of the lake described in the permit, or to the quantity of material specified therein.

5. The right granted under the permit shall apply only to the bars in or the bed of the stream or lake itself, at a distance from the shore line, and shall not authorise the permittee to remove sand, stone or gravel from or otherwise interfere in any way with the banks of the stream or lake, or with any structures erected therein.

6. The permittee shall cause no material damage or unnecessary disturbance to the bed or banks of the stream or lake affected by his permit, nor shall he interfere with the right of the public to use the river or lake for navigation or other purposes, or to interfere with the free navigation of the said river or lake by forming bars or banks in the channel or bed thereof.

7. The removal of the sand, stone or gravel authorised by the permit shall be under the direct supervision of an officer to be named by the Minister of the Interior and to his entire satisfaction.

8. The permit shall be subject to immediate cancellation at any time, without compensation to the permittee, for a breach of any of the above conditions, or in case it should be shown to the satisfaction of the Minister of the Interior that the removal of the sand, stone or gravel covered by the permit is likely to cause damage or obstruction, or to otherwise prejudicially affect the interests of the Crown or others.

9. The permittee shall keep the Crown indemnified against all actions, claims and demands that may be lawfully brought by reason of anything done by the lessee in the exercise or purported exercise of the rights and liberties granted under the permit.

10. A fee of fifty (50c.) cents shall be charged for each permit, together with dues at the rate of one (1c.) cent per cubic yard for the quantity of material in excess of one (1,000) thousand cubic yards included in any one permit.

11. The permit to be issued under these Regulations shall be on such form as may be approved by the Minister of the Interior.

*Clerk of the Privy Council.*

AT THE GOVERNMENT HOUSE AT  
OTTAWA.

Thursday, the 9th day of September, 1909.

PRESENT :

HIS EXCELLENCY THE DEPUTY GOVERNOR-GENERAL  
IN COUNCIL.

**O**N a Memorandum dated 31st August, 1909, from the Minister of the Interior, referring to the Order in Council of 19th June, 1902, under authority of which order there was sold to the Vancouver Power Company, Limited, two certain parcels of land, one on the west shore of Coquitlam Lake, in British Columbia, for a site for a tunnel portal comprising an area of sixty-six acres and patented to the said Company by patent dated 14th April, 1904, and the other for a site for dam and other works on the Coquitlam River, near the southern end of the said Coquitlam Lake, comprising an area of forty-four acres and patented to the said Company by patent dated 16th November, 1906. Both these parcels were patented to the Company under the authority of the said Order in Council conditional on the Company undertaking to use the said land for no other purpose.

The Minister states that the said Vancouver Power Company, Ltd., has addressed to him a communication dated 23rd August, 1909, copy of which communication is hereto attached marked "A," in which the Company solicits approval of the proposed further development of its hydraulic undertaking at Coquitlam Lake.

The Company points out that with its allied Companies there has been spent to date in developing the various systems about \$18,000,000, and that they have work now in hand which bring the total capital investment up to \$26,000,000 within

two years. The works include railway and electric light and power works for the cities of Vancouver, New Westminster, and for that portion of the Fraser River Valley stretching about seventy-five miles east of the City of New Westminster.

The Company applies to purchase certain lands being an area of 75.12 acres adjoining to the south the area previously patented to it and as described in schedule marked "B" herewith, all for the purpose of erecting thereon a hydraulic earth and rock filled dam, 85 feet high and by means of which the waters of Coquitlam Lake will be raised 60 feet above present level, all according to plans and specifications, copies of which have been filed in the Department of the Interior.

The Company also applies to purchase certain lands being an area of approximately 3,956 acres of land around Coquitlam Lake and as also described in schedule marked "B" herewith. Some portions of these lands will be flooded by the erection of the proposed dam, but inasmuch as no plan of survey has yet been made to accurately show the lands so to be flooded the Company states that the lands applied for are described by legal subdivisions and so as to include all the lands to be flooded, but the Company prefers to purchase only the flooded lands. Both in regard to the land applied for the site of the dam and the lands applied for flooding purposes the Company agree that if its application is granted the lands shall be used only for the purposes of its water-power development.

The Company also desires approval so far as the Department of the Interior is concerned of its plans for the erection of the dam and other works.

Before these lands are sold and before such approval is given certain interests require consideration.

1. The water supply of the City of New Westminster.—The measures intended to be taken to protect this water supply are fully set out in Minute of Council, dated 9th September, 1909, and upon the Company entering into the agreement therein and hereinafter referred to and furnishing satisfactory to the Minister the bond also therein referred to, it is the opinion of the Minister that the said water supply is fully and sufficiently protected.

2. The interests of timber lessees in logging in the Coquitlam River.—The Company's application of which a copy is herewith attached marked "A," agrees that it shall release such water for the purpose of driving logs in the Coquitlam River, and for agricultural and domestic purposes, within the drainage basin of the said Coquitlam River below the dam, as the Minister of the Interior may from time to time direct. The Minister is of opinion that the insertion of a provision in the proposed agreement giving him such power sufficiently safeguards the said logging interests.

3. The passage of logs cut from area surrounding Coquitlam Lake over the proposed dam.—Provision is required for this purpose and in the opinion of the Minister should be inserted in the agreement.

4. The requirements of water for agricultural and domestic purposes within the drainage basin of the Coquitlam River below the proposed dam.

These requirements will, in the opinion of the Minister, be sufficiently safeguarded in the provision hereinbefore referred to under clause 2.

5. The navigation of the Coquitlam River.—The report of the Engineer of the Department of the Interior shows that the navigability of this river, so far as the same is of any importance, will not be affected by the proposed works.

6. The question of possible injury to fishing interests.—The Minister is advised that salmon have in the past ascended this river in large numbers to spawn in the lake, but that they afterwards die and consequently prove detrimental to the waters as a source of domestic supply. The Minister is of the opinion that no provision for the passage of fish is necessary in the new works, and that such provision may be dispensed with, subject to the approval of the proper officers of the Marine and Fisheries Department.

7. The safety of the proposed dam.—A careful examination of the site of the proposed dam and an examination of the plans and specifications has been made jointly by Messrs. George A. Keefer,

Resident Engineer of the Public Works Department, under instructions of that Department, and Mr. J. B. Challies, C. E., of the Department of the Interior. A joint report signed by Messrs. Keefer and Challies has been filed in the Department of the Interior, dated 24th August, 1909, and in this report they state that the dam has been designed with every reasonable safeguard against failure. They also state that Mr. Schuyler, the consulting engineer, is a man of world-wide prominence and of very great experience especially in this class of dam construction. Mr. Binckley, the chief hydraulic engineer, is stated by them to be a man of wide practical experience in hydraulic filled dam construction. They further point out that the Company is financially able to carry out the construction to the entire satisfaction of Mr. Schuyler and Mr. Binckley. The report of Messrs. Keefer and Challies having been examined by the Acting Chief Engineer of the Public Works Department, said Acting Chief Engineer has certified as follows:—

"I have examined the plans of the dam proposed to be built on the Coquitlam River, B. C., by the Vancouver Power Co., and I fully concur in the report of Messrs. Challies and Keefer in "so far as it concerns the stability and mode of "construction of the proposed structure."

The Minister of the Interior points out that in the application of the Company hereto annexed and marked "A" the Company agrees:—

(a.) That in the erection of the dam the Company shall faithfully adhere to the plans as finally approved by the Minister of the Interior, subject to such modification as may be found necessary, and shall be approved by the Minister.

(b.) That the Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) That weekly reports of progress during construction shall be submitted to the Minister of the Interior.

(d.) That the Minister shall have the right to place an Inspector on the work for the purpose of seeing that the dam and other works are carried out in accordance with the approved plans and the proposed agreement, the salary of such Inspector to be paid by said Company.

(e.) That the Company shall after the completion of the dam maintain and operate the same to the satisfaction of the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by him.

(f.) That the Company shall furnish and keep in force security approved by the Minister for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dam, or by any breaking of or other injury to said dam after its construction, and the said security shall also be held to cover any ascertained damages to lands on Coquitlam River by reason of the normal flow or water being diverted from said stream.

In view of the expert opinions given as to the plans and specifications for the proposed dam and the provisions above set out for properly carrying out the said plans and specifications, and the provision for security for the payment by the Company of all damage that may be occasioned by its construction or operation, the Minister is of the opinion that every reasonable precaution has been provided for the safety of the dam.

The Minister, therefore, recommends that, subject to the said Vancouver Power Company having first entered into an agreement with the Minister as representing the Government of Canada embodying the conditions set out in clauses 1, 2, 3, 5, 6 and 7, and having filed with the Minister a satisfactory bond to keep and maintain the purity of the water supply in Coquitlam Lake and River at and above the intake pipe for the City of New Westminster, he be authorised, upon payment by the Company into the Department of the Interior, of the required amount at the rate of \$10 per acre, to issue patent in the name of the said Company for the lands required for the site of the dam as set out in schedule "B" annexed hereto, and upon the Company filing in the Department of

Interior a plan of survey approved by the Surveyor-General of the Department showing the portions of the lands, also set out in schedule marked "B" annexed hereto, which will be flooded, he be also authorised to issue a lease in the name of the Company, providing for an annual rental payable each year in advance at the rate of 25 cents per acre, but both the patent and the lease to contain a proviso that the lands shall not be used for any other purpose than for and in connection with the water-power development by the Company.

The Minister further recommends that approval be given of the plans of the dam and works of the proposed further development of the Company's hydraulic undertaking at Coquitlam Lake in order that the Company may proceed with construction, but on the express understanding that nothing herein contained shall be held to warrant the said Vancouver Power Company in claiming the granting by this Government of rights in the waters of Coquitlam Lake and River, additional to those granted by Order in Council, dated 15th April, 1902, except under Regulations which shall be similar to those now in force governing the administration of water-power in connection with the Dominion Lands in Manitoba, Saskatchewan and Alberta, and in the issuing of a licence for the use of water to the said Company, such licence shall conform to clauses 1, 2, 3, 5, 6, 7, 8 and 10 of the said Regulations.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,

*Clerk of the Privy Council.*

"A."

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C.,

August 23rd, 1909.

*Re Coquitlam Dam.*

SIR,—I have the honour, on behalf of the Vancouver Power Company, to respectfully solicit your approval of the proposed further development of our hydraulic undertaking at Coquitlam Lake. The plans of the dam have already been handed you. These provide for the erection of a hydraulic earth and rock filled dam of a sufficient height to raise the water level of the lake about 60 feet. The dam has been designed in such proportions and of such material and workmanship as to render the structure secure and lasting as human skill is able to provide for. The plans provide for the pipes, intake works, screen chambers, etc., in connection with the water system of the City of New Westminster, as designed by the City's hydraulic engineer, and give a capacity twenty-one times greater than the present pipe, which appears an ample provision for future growth of demand.

The further development of our undertaking as indicated is necessary to provide additional electric power for the operation of our railway extension, and the growing demand for electric light and power for domestic and industrial purposes in and around the cities of Vancouver and New Westminster, and that portion of the Fraser Valley stretching about 75 miles east of the City of New Westminster.

Our allied companies have expended about \$18,000,000 to date in developing our various systems, and we have work now in hand which will bring our total capital investment up to \$26,000,000 within two years. At the present time we have over 100 miles of electric railway under construction, including a line of 65 miles in length from the City of New Westminster through the southerly portion of the Fraser Valley to Chilliwack. We believe our various undertakings have assisted materially in the upbuilding and developing of the districts in which we operate, and can therefore confidently look to you for encouragement and assistance in the carrying out of the further objects we have in view.

I beg to say that in the event of your approving our application herein, the Company is prepared to accept the following special conditions, together with such other orders as you may consider necessary in the premises.

1. In the erection of the dam the Company shall faithfully adhere to the plans as finally approved by the Honourable the Minister of the Interior, subject to such modifications as may be found necessary from time to time during the progress of the work, which modifications, however, shall be submitted to the Minister for his approval.

2. If required, the Company shall submit to the Department of the Interior detailed plans of any portion of the work, as they are developed.

3. During the construction of the dam the Company shall submit weekly reports of progress to the Honourable Minister of the Interior, who shall have the right to place an Inspector on the work for the purpose of seeing that the dam and other works are carried out in accordance with the approved plans and arrangements, the salary of such Inspector to be paid by the said Company.

4. The Company shall, after the completion of the dam, maintain and operate the same to the satisfaction of the Hon. the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected from time to time by an officer appointed by the said Minister.

5. That before the work of construction begins the Company shall satisfy the Hon. the Minister of the Interior of its financial ability to carry out and maintain said work, and shall furnish and keep in force security approved by the Hon. the Minister of the Interior for the payment of all damage that may at any time be occasioned by the construction or operation of the dam, or by any breaking of or other injury to said dam after its construction, and the said security shall also be held to cover any ascertained damages to lands on Coquitlam River by reason of the normal flow of the water being diverted from said stream.

6. 9. That the water supply of the City of New Westminster shall be furnished at the same pressure it now receives, or at the option of the City at as much as the head of water in the lake will afford.

10. That the Company shall remove, without reducing the present net hydraulic head, the vegetable growth and objectionable micro-organisms, and all impurities, colour, odour and taste that may be inflicted on the water supply of the City of New Westminster as a result of the construction and operation of the dam.

15. That the Company shall pay to the Crown such sum per 1,000 feet as the Hon. the Minister of the Interior may direct for all merchantable timber on the flooded area, as well as for such additional timber which the Company may be permitted to remove from other lands of the Crown.

16. It is understood and agreed by the Company that the violation by the Company of any of the above requirements or such other condition or requirement as may be imposed by the Honourable the Minister of the Interior, may result in the revocation of the permission to build and operate the dam.

In order to carry out the works as designed, the Company respectfully solicits your official action in the following matters:
